

CHAPTER V

CONCLUSION AND SUGGESTION

This chapter will provide conclusions in answering research question based on the data analysis that was carried out in the previous chapter. In addition, the writer also provides suggestions for several parties which will be explained in turn below.

A. Conclusion

This research is done with the aim of kind of women struggles represented in The Woman King Movie with gynocritical study. Through this research, the writer draws several conclusions, including:

1. Some of the women's struggles shown in the film The Woman King have issues that are quite close to the present. Even though the film takes place in the 1800s, it turns out there are several things that also happen now, such as the problem of a woman's self-confidence, the unhappiness that women have and also the many class differences that still occur in several regions or countries regarding the figure of women.
2. The women in the film The Woman King use various methods to maintain their strength as strong women. especially women who have painful and traumatic pasts. One way that women do this is to fight pain and unhappiness by becoming an Agojie and always winning every battle. Some of these things are how these women maintain their strength as strong women.

B. Suggestion

Based on the analysis outlined above, the writer wants to provide suggestions for future study that will be helpful for both the writer and the readers.

1. Researcher

The researcher hopes that research related to feminist gynocritics can be applied and can be studied properly. because the theory about gynocritics here is still quite common to hear and understand. So in the future there will be more research related to the theory of gynocritics which researchers have researched here.

2. Readers

The hope for readers of this research is of course that it will be useful and can be taken into account regarding things that can be researched and possibly improved. and researchers hope that readers can carefully read and understand what has been written in this research. because the analysis in this research has various issues related to women, in fact the issues are very close to the present. Even though the depiction in the film took place hundreds of years ago, it is hoped that readers can easily understand the context and analysis that has been written here.
