

## CHAPTER V

### CONCLUSION AND SUGGESTIONS

#### A. Conclusion

This chapter will discuss about conclusion for all the chapters, particularly between the questions of the research in this chapter one and the analysis in the chapter four. For the further conclusions, the writer explains as follows:

1. The writer found transitive verbs in the short story and there are 3 types of transitive verb.
2. After the research done, the writer can identify of lexeme: its parts, meaning and letter totals in transitive verb. After doing analysis in chapter four the writer found 21 data in the short story. There are found 13 monotransitive verbs 5 ditransitive verbs 3 complex transitive verbs.
3. Classifying the types of transitive verb needed knowledge about the characteristic each type of transitive verb. There are some types of lexeme in transitive verb. Monotransitive verbs, ditransitive verbs and complex transitive verbs. The most lexeme in transitive verb types found in the short story is monotransitive verbs 61,90% while ditransitive verbs 23,80% and complex transitive verbs 14,28%.
4. Lexeme consisting of one word or several words, considered as an abstract unit, and applied to a family of words related by form or meaning.
5. Lexeme is bare forms. It's necessary to bear in mind that word with same spelling but different meanings. Do not represent same lexeme.

6. Lexemes are the headwords that you find listed separately in dictionary and its base morphology that assume linguistic unit that is larger than morpheme.
7. Standard word which being core meaning in a sentence where it word can be found in dictionary.

## **B. Suggestion**

After analyzing and giving conclusion about the analysis of lexeme: its parts, meaning and letter totals in *A Cosmopolite in A Café* short story by O'Henry. Finally, the scientific paper has come to the last paragraph. In this chapter, the writer would like to give suggestion.

### **1. For the Student**

The student who study linguistics, especially in morphology, they must know how to find a lexeme in transitive verb in the sentence. The student must be able to distinguish lexeme and its parts also transitive verb in the sentence and this knowledge can be more specific in the future to enrich this kind of field.

### **2. For the Lecturers**

The lecturers, who teach linguistics, hopefully can provide understanding about the lexemes to the students. All the lecturers also can give more explanations about a language form and they can identify lexeme in transitive verb in the sentences. The lecturers should give

correct explanation about it and can be appraisal for the students to do some research about it.

### 3. For the Readers

The writer suggests the readers to do the research about lexeme for further discussion, because there are many interesting aspects which can be analyzed. As for the object of this research, has chosen short story to analyze. The writer suggests to do further research on lexeme found in the movie or song to be analyzed. It is very important to have a further understanding about words and its form.
