4. Language has spesial step ans the steps are effect as the needs of humans to communication
5. Language have had the complete rules in every element of the language.
6. The meaning of language, which has a language sub-field, namely semantics
7. Meaning fields have the wide and various reaches and it is usually divided into several kinds of meaning.
8. Due to the meaning in language has so various reacher, it can cause the ambiguity meaning.

B. SUGGESTION

Based on the problem statements and afler having analysis, the researcher suggests for:

Newspapers' readers, homonymy words is one of the problems for the readers in reading and understanding the articles of the newspaper. They may he confused about the interpretation of the ambiguous words of homonymy in sentences. To figure out the right interpretation and the exact meaning, they should understand the topic of the articles and the context of situation besides reading the whole paragraph.

the Students, For the students who study Semantic, in the case of ambiguity of homonymy, they can take this thesis as a reference. "They can know the causal factors of ambiguity of homonymy but they also have to know how to interpret the homonymy.

Other Researchers, For the other researcher, they can also take this research as a reference for further research in the case of ambiguity in the homonymy. They may combine and develop the research with many interdisciplinary studies.
