

## CHAPTER V

### CONCLUSION AND SUGGESTION

#### A. Conclusion

This research has purpose to find out about significant influence between processing condition of speaking in speaking class at the fourth grade of SMA Daar El Qolam Tangerang, there were conclusions that have been found by the researcher:

1. The influence between processing condition of speaking in speaking class is high **significance** value  $0.000 < 0.05$  which means there is significant influence between processing condition of speaking in speaking class for the students at fourth grade of SMA Daar El Qolam Tangerang.
2. The average number of scores obtained from the pre-test was 67 and the average number of scores obtained from the post test was 79.
3. The reliability of influence between processing condition of speaking in speaking class is **significance** value, the result of coefficient is  $0.921 > 0.05$  which means there is significant.
4. Based on interpretation above, the researcher takes conclusion that hypothesis testing result of student at SMA Daar El Qolam Tangerang, students are 10.258. According to Paired sample Test correlation standard with  $t_{table}$  if the sample consist of 20 students is 2.093 that means  $10.258 > 2.093$ , so the **hypothesis is accepted**.

## **B. Suggestion**

In line with the conclusion, the researcher would like to propose some suggestions for SMA Daar El Qolam Tangerang and other researcher that is probably useful in the future for the school, teachers, students and other researcher.

### **1. English Teachers**

Teachers area able to make methods of teaching English which can attract student's attention so they can motivate students to increase speaking skill in the class and the students can improve result holding support facilities for students such as dictionary, books or electronic media provide for language laboratory.

### **2. Students**

Students of the fourth grade of SMA Daar El Qolam Tangerang are expected to learn some speaking skill in order to increased knowledge. The student have to be more active at speaking class. The further effort needs to be made by the students is to encourage themselves in improving speaking in front of the class or the audiences without feeling fears and unconfident and also without worrying of making mistakes.

### **3. School**

The school, SMA Daar El Qolam Tangerang is expected and suggested to always increase the quality of the educators works that they may provide the students comprehension with knowledge and guide well maximally.

#### 4. Other Researcher

This research can be useful to other researchers who want to conduct a research that is related to the same theme and can be useful as the source of their reference.
