

## CHAPTER V

### CONCLUSION AND SUGGESTION

#### A. Conclusion

The researcher finally made conclusions of the slang words used in Justin Bieber song lyrics. After the researcher has finished analyzing about the type and meaning of slang word, some conclusions can be formulated based on the data of the research as follows:

1. Concerning the objective of the study, the researcher uses the theory about slang word by Elisa Mattiello. The researcher analyzed the collected data into 2 categories which are the type of slang word and the meaning of slang word. There are 26 data collected based on the theory that has been mentioned in the previous chapter. From those 26 data, the researcher uses some dictionaries to search and understand the meaning of slang words.
2. In this study, the researcher analyzes the types of slang words based on Elisa Mattiello's theory which used in Justin Bieber song lyrics. The research process done by the author aims to unravel general questions on the meaning of the slang words used in Justin Bieber's song lyrics.
3. The researcher managed to analyzed the types of slang words used in Justin Bieber's songs and there are 6 types of slang found in 6 of Justin Bieber song lyrics which are compounding, conversion, clipping, acronym, blending, and word manufacture. Meanwhile, the 9 types of

slang that the writer seek for were not found and those are prefixation, suffixation, final combining forms, infixation, back-formation, reduplicative, elliptic rhyming, reversed form, and variation. The slang type of clipping is frequently found in this research because it is used to shorten the time while talking, texting, or singing. Clipping is found 11 times out of 26 data. The least frequent types of slang that were found in this research is acronym with only 1 data.

As already known, slang language is impolite and it is an informal language that mostly used in youth environments. However, there are also a lot of adults in their 30s who still use slang language to communicate with their close relation.

## **B. Suggestion**

Based on the result of the research which has been obtained, some suggestions are stated for further research. The suggestions are presented as follows.

1. For the students of English Literature Department
  - a. Students should study the science of Sociolinguistics
  - b. Students should next study about language variations
  - c. Students should study about slang and other items of sociolinguistics and had to know that slang does not always have impolite meaning.

In can be used in public even though it is an informal language. By

learning slang, we will not be out of date and confused by the slang word used in daily conversation.

2. For the next researcher

- a. For the next researchers should understand about the kinds of methodology and those who have high interest in linguistics, especially in the sociolinguistics subfield and want to use slang as their topic of research in the future, this paper can be a little helpful for simple explanation of slang words even though this study is still far away from being perfect. The researcher suggests to the next researchers to improve this research in a wider context with different theory and object.
- b. Next researcher should be able to understand about the qualitative, especially for the inductive kinds.
- c. Should understand about main data and secondary data very well.

3. For the lecturer

- a. Lecturer should know and understand about the student's research. Take the data of student's research as reference and inform about the student research to the new student.
- b. The researcher expects that this paper can be useful for students and readers in terms of analyzing works of sociolinguistics about the types and meaning of slang words based on Elisa Mattiello.
