

## CHAPTER V

### CONCLUSION AND SUGGESTION

#### A. Conclusion

After analyzing the previous chapter, the writer come to the conclusion that the data taken from The Holy Woman novel by Qaisra Shahraz has important point regarding gynocritics perspective and feminism values.

Based on the research findings and discussions about female character analysis from gynocritics perspective and feminism values through the feminism approach in The Holy Woman novel, some conclusions can be formulated as follow.

1. Gynocritics perspectives which are divided into four models, women's body, women's language, women's psyche, and women's culture are portrayed through main female character in The Holy Woman novel by Qaisra Shahraz. Those four perspective describe that some problems attached to women in the patriarchal culture that is revealed through their body, language, psyche, and culture.
2. Feminism values are also portrayed through the main female character, Zarri Bano in The Holy Woman novel which consist of education, equal liberty, and equal economic opportunity.

## B. Suggestion

After analyzing this research completely, the writer will present some suggestions based on the result of the research which have been obtained.

The suggestions are presented as follows.

1. To the students of English Language and Literature Department and other researchers.

The writer expects this research can be useful to provide enough information for the next researcher who wants to have similar research about feminist literary criticism, especially about gynocritics and feminism. The writer also expects that English learner will be more interested in feminist literature fields.

2. To the readers

Hopefully, by reading this research the readers can get more knowledge about feminist literary critics and feminism values in the literature works such as novel, film, poetry, etc.

3. To the campus

It is expected that the library can provide more references regarding sociological literature in the future so that it can help the next researcher to find the data source for their research easily. It is also hoped that library can maximize the function of e-library in the future in connection with the current pandemic so that it easier for researchers to access data sources from home.
