

## CHAPTER V

### THE CONCLUSION AND SUGGESTIONS

#### A. The Conclusion

Based on what the author is working on, it could be concluded that the author has experienced the impact of Covid 19 in doing her work, when in the field there are limits to observing and when at the office there are obstacles on the internet in this work a lot of planning is hampered so the author must evaluate together with colleagues work. In the midst of difficult conditions, although many agenda activities have been cancelled, but Sub-dept. Kepulauan Seribu keep doing other activities to support success. implementation of PPKM in Jakarta, especially Kepulauan Seribu. Travelers must follow the stages of the existing health protocol, by carrying out and implementing PPKM policies can minimize the spread of Covid 19.

#### B. Suggestion

1. For Dinas Kepulauan Seribu, changing the internet connection network at the Kepulauan Sub-dept in carrying out meeting activities through virtual can run smoothly.
2. It is better if the existing wifi facilities are open to everyone, including students who are doing internships to make their activities easier in touch with all workers.

3. The input process data number of tourist visits and letters entry and exit should be changed to through the advance system to make it easier.
4. For Readers, working as a Adminstration in Kepulauan Seribu a lot of fun. People should not hesitate to begin or try a career as a Adminstration.
5. For Campus, lack of books on tourism in the library. There should be more books about National tourism or International tourism
