#### A. Conclusion

After having analyzed 20 data in the previous chapter before, it can be concluded that there are three categories of object that can be found in The Hunger Games movie. The writer focused on finding icon, index and symbol of the appearance of The Hunger Games casts. By considering all things that matter, it can be concluded as follow:

1. This research is about to find the categories of sign that exist in The Hunger Games Movie. The writer has found data which has been categorized as symbols, icons and indexes. Most of them are colors of the outfits that symbolized the feeling and character of the casts.
2. From the research, the writer wanted to find the meaning of those sign categories. Every sign categories have different meaning, but most of them which are symbol of colors have meaning that was represented the person who wore it. Another meaning that the writer could found was icon which gave the meaning as imitation or replica of the real entity. There are 3 indexes that gave some meaning about what the casts wore with what they going to do.

3. The third is identifying the reason of the sign. It is more like the sign called as icon, index and symbol because of what and its relevancy to the semiotic theory by Peirce which the writer has as the main theory.
4. The fourth is this research is a chance for the writer to dig deeply her potential in learning something new.
5. All along the time in working this research, the writer can gain new information, knowledge and friends while in the time of doing this research.
