

CHAPTER V

CONCLUSION AND SUGGESTION

For this chapter, after doing research and getting results at PT. Kelola Aset Teknologi, researcher can finally draw conclusions about the relationship between vocabulary mastery and speaking ability in the following:

A. Conclusion

Based on the result of the research in PT. Kelola Aset Teknologi, the researcher gave the following conclusion:

1. After this research was conducted, the researcher made conclusions according to the results obtained, that there is a relationship between vocabulary mastery and speaking ability with clients of the staffs in PT. Kelola Aset Teknologi. This is proven by the existence of significant positive correlation between vocabulary mastery (variable X) and speaking ability (variable Y).
2. For the result of variable X (vocabulary mastery) the researcher found that the highest score for this test is 100 and the lowest score is 13. While for the result of variable Y (speaking ability) the researcher found that the highest score for this test is 93 and the lowest score is 37. The result of the correlation calculation with the value that has been obtained is 0.992, which means the correlation between vocabulary mastery and speaking ability has very strong relationship. The calculated value of r_{observed} was higher than r_{table} which is $0,992 \geq 0,632$. Then the hypothesis is accepted

with coefficient of determination = 98,40%. Meanwhile, 1,60% was influenced by other variables such as courage and freedom to speak English.

B. Suggestion

For this chapter, after doing research and getting results at PT. Kelola Aset Teknologi, researcher can finally draw suggestions about the relationship between vocabulary mastery and speaking ability in the following:

1. For company

It is important for companies to support things that can indeed improve English language skills, by:

- a. Using English as the language that is often used in the company.
- b. Requiring to use English at a meeting presentation to see the ability of the staff.
- c. Making English a pleasant habit.

2. For Readers

Because this study has shown a relationship between vocabulary mastery and speaking ability, readers are advised to always increase the vocabulary mastered so that their English speaking ability will increase.

3. For Further Researcher

This research can be used for further research as a reference if there are other researcher who want to study about a company, especially

in the marketing department. Also there are still many aspects that can be analyzed about vocabulary and the ability to speak in English.
