

## CHAPTER V

### CONCLUSIONS AND SUGESSTIONS

In this chapter are include conclusion and suggestion of the research. After analyzes data that contain of code mixing on Maudy Ayunda Youtube Channel as research topic, it has some conclusion in this research.

#### A. Conclusions

The researcher finally concluded the code mixing analysis on Maudy Ayunda's YouTube channel. Based on the research data, the following conclusions were reached after analyzing the types and reasons for using code mixing:

1. The data have been analyzing from "Maudy Ayunda's YouTube channel".

The researcher found 30 data that contains code mixing. The types of code mixing used Maudy Ayunda are insertion and alternation. The reason that Maudy Ayunda mix language to another language is prestige filling and need filling motive. The type of code mixing that is often used by Maudy Ayunda is insertion consists of 24 data or 80% and alternation 6 data or 20%.

2. The reason of code mixing that is often used by Maudy Ayunda prestige filling motive consists of 37 data or 93% that influenced by educational background and need filling motive consist of 1 data or 7% that cannot find similar meaning which equal in their language.

## B. Sugestions

After analyzing the data from YouTube channel, the researcher understood that code mixing is the process of mix one language to another language. The purpose is to make the viewers easier to understand. The suggestions are presented below:

### 1. For the student

Students who are interested in sociolinguistics, particularly code mixing, will find this paper useful in providing simple explanations and examples of code mixing. It is also expected that this paper will serve as one of their references in learning about code mixing. The researcher anticipates that this paper will be useful to the lecturer in sharing examples of how to know meaning, types, and reason using code mixing based on Pieter Muysken and Hocket's theory.

### 2. For the readers

The researcher hopes that general readers with an interest in sociolinguistics will use this study as additional knowledge and will help them understand more about the types and reasons for using code mixing.

### 3. For the researcher

Because the researcher hopes that this research will be useful to readers as a related reference in analyze code mixing on Maudy Ayundya's YouTube channel, all suggestions and conclusions on how to improve this research will be greatly appreciated.

4. For the college

The researcher anticipates that this paper will be useful to the college and that it will be added to the reference book of the STBA JIA library. The researcher suggested that the college provide more sociolinguistic books, particularly those on code mixing, to make it easier for students to conduct their research. The researcher hopes that while students are conducting research, they will not waste time traveling to other universities to find references, but rather will find them in the STBA JIA library.
