

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

Based on the data analysis and interpretation, it can make some conclusion. In the data articles BBC News, there are several words of the data that analyzed. The writer focuses to find the meaning of prefixes and kinds of prefixes in the analysis. And it has been some conclusion based on the data research:

1. After analyzed the data the writer found 25 data of the analysis. There are several types of prefixes that can change the meaning and does not change the meaning of root word. The writer finds 8 meanings of prefix. There is negative meaning, indicated a certain number meaning, time and order meaning, pejorative meaning, attitude meaning, degree or size meaning, indicated location meaning, and conversion meaning.
2. In the analysis of the results of changes in meaning in words containing prefixes, there are 25 prefix of words that have a change in meaning from a total of 25 data. While the analysis of the change in word class, the word class changed is has 4 prefix and the word class that did not change is 21 words out of the 25 total words. And the last is an analysis of the types of prefixes found in this analysis. The writer found 8 types of prefixes in the data article BBC News. The first is negative prefix. The Negative Prefix has 11 prefix of the 25 total data. Second, Number Prefix, has 1 prefix of the 25

total data. Third, Prefix of Time and Order has 6 prefix of the 25 total data. Fourth, Pejorative Prefix, has a 1 prefix of the 25 total data. Fifth, Prefix of Attitude, has 1 prefix of the 25 total data. Sixth, Prefix of Degree or Size, has 2 prefixes of the 25 data. Seventh, Locative Prefix, has 2 prefix of the 25 total data. The last, Conversion Prefix has 1 prefix of 25 total data.

B. Suggestion

Based on the result of the research which has been obtained, some suggestions are stated for further research. The suggestions are presented as follows:

1. For students

The writer advises the following researches to develop this research in a large context since students are interested in linguistics, particularly in the morphology-semantics analysis field, are highly anticipated to do research on the meaning of prefixes.

2. For the readers

The reader will learn more in-depth information about English from this study of the little things of English. Based on the findings of this study, the writer advises that readers use this study as a benchmark to understand the meaning of prefix and also, should understand about semantics meaning and prefixes procedures how can word changed and has a new meaning of root word. For the meaning, it is important to understand carious deeply

functions of the meaning and how the readers can apply this knowledge to their own and people around them.
