

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

Feminism is a movement that aims for women to have the right to choose their freedom. Feminism involves all views that exist in women's lives. After analyzing the previous chapter, the writer concludes that the data is taken from the Eat Pray Love film produced by Ryan Murphy in 2010. Based on the data analysis, the writer finds answers to the two problems formulated in the first chapter as follows:

1. Eat Pray Love is a film based on a novel, this film tells the story of a woman who feels she has lost her purpose in life and goes through the struggles she has to live to get her life purpose back on track. The writer founds 6 types of feminism in Eat Pray Love 2010 produced by Ryan Murphy proposed by Imelda Whelehan, namely liberal feminism, Marxist/social feminism, radical feminism, postmodern feminism, lesbian feminism, and black feminism. based on data analysis, the writer found 20 data on feminism. The data that dominates are liberal feminism with a percentage of 50%, Marxist/social feminism with a percentage of 25%, postmodernism with a percentage of 20%, radical feminism with a percentage of 5%, lesbian feminism and black feminism with a percentage of 0. The most dominant of the six type feminism in the Eat Pray Love Film is Liberal Feminism, that is because

film *Eat Pray Love*. explains a lot about how to get individual freedom and the right choose beliefs in the right actions.

2. Four of six feminism types of *Eat Pray Love* is reflected in the main character Elizabeth (Liz). Starting from Liz's determination and courage in making very big decisions, after that Liz also has a firm character and has a critical mindset. Liz's courage in criticizing someone and being able to voice her right to freedom in her life. Then, Liz is also able to change a view that she is also capable and has the same abilities as men in any case, Liz's independence can change everything in her life. So, since then Liz also got a lot of happiness in her life because she has the freedom to choose a partner to complete her life.

B. Suggestion

After analyzing this research completely, the writer would present some suggestion based on the result of the research which have been obtained as follows:

1. For the researchers, the writer suggests that other researchers if they want to do a research on feminist literary criticism can use the data in this study as a reference.
2. For the readers, readers should study literary criticism about feminism to develop and expand their understanding of feminism, especially the types of feminism.

3. For the campus, the writer hopes the campus library can reproduce books or references on feminist literary criticism because it will make it easier to help further researchers complete future research using the sources in the library.
