

CHAPTER V

CONCLUSION AND SUGGESTION

Based on the data analysis in the previous chapter, this chapter will provide conclusions in answering the research questions. Provide conclusions in answering research questions. Furthermore, the author provides recommendations for various parties.

A. Conclusion

This research aims to find out the verbs in transitive simple sentences and find two ways dependency by making tree diagrams. There are several conclusions drawn by the writer as a result of this research, including:

1. From the research object, there are 15 data analyzed to find out the verbs in transitive simple sentences. The number of verbs in the short story of the little prince is 15 data.
2. Referring to the 15 data analyzed, all of these data are searched for the word class in each sentence by making a tree diagram and the two-way dependency will be seen by looking at the word class.

B. Suggestion

Based on the conclusion mentioned above, the writer has some suggestions to the readers as following items, which are:

1. For Readers

The writer hopes that for STBA JIA students who see this thesis writing are motivated to take syntax material. If next researchers are interested in writing this topic, this thesis can be used for reference when writing a thesis.

2. For English Learners

The writer hopes that by writing a thesis on this title, the next stba jia students can look for titles like this with a wider and deeper analysis to the better improvement.

3. For STBA JIA Library

The writer hopes that STBA JIA library will have more references on syntax in the future to make it easier for students when writing a thesis so that the next researchers can find it easily without having to browse on the internet, ebooks, and other journals.
