

CHAPTER V

CONCLUSION AND SUGGESTION

After finding and analyzing the intimate style used in the film *Father of the Bride*, the researcher provides some brief conclusions and suggestions to readers interested in exploring this research.

A. Conclusion

Based on the results of data analysis in chapter IV, the researcher formulates several conclusions. In the movie, the actors uttered all five characteristics of intimate style such as addressee, extraction, jargon, close relationship, and family relationship.

1. There are 97 utterances that contain intimate language style used by characters in the movie *Father of The Bride*. Extraction has the largest frequency with a frequency share of more than half at 60%. Addressee with almost a quarter at 23%. Then, family relationship is 10%, followed by close relationship characters have 5%. Jargon has the smallest frequency portion of only 2% of all utterances.
2. To answer the second research question, the researcher found 87 speech functions used by the characters in *Father of the Bride* movie. Expressive function is the highest frequency function at 47%, followed by referential function at 33%, directive function at 12%, and the least frequent function is pathic function at 8%.

B. Suggestion

According to the above conclusions, the researcher presents suggestions that are aimed at readers and future researchers. The first suggestion for readers is that studying intimate language styles especially those used in melodrama genre movies in this research will make some contributions to gather information or the intended meaning of the messages conveyed by the characters.

The next suggestion for future researchers. They may use the results as a reference for understanding language style, especially intimate language style. The researchers also suggest that they have more theories related to this study to complement theories or even combine theories with one another. In addition, they can also use these results to compare and guide future research, especially on sociolinguistic analysis. In addition, the researcher also suggests other objects to analyze such as social media, speeches or articles.

As a final suggestion for the society, it is important to be knowledgeable about the intimate language styles that people unconsciously use in their daily lives. Because this style of language is a way to make more intimate with people who have a close relationship. In addition, with this style of language it can appreciate someone's utterance because of the meaning that is in it.
