

## CHAPTER V

### CONCLUSION AND SUGGESTION

This chapter is divided into two sections. The first section is about the conclusion and the second is about the suggestion. The conclusion is the summary of findings, which is based on the purpose of the study, research questions, and findings. The suggestion should be used to provide additional information about the data analysis and discussion.

#### **A. Conclusion**

After analyzing all the data that has been analyzed concerning Social Deixis in The Jakarta Post, this is the conclusion from the result of the thesis that the writer completed. The writer reaches the conclusion as follows:

1. The researcher discusses about social deixis, the main data are taken from the Newspapers The Jakarta Post, there are two kinds of social deixis form, namely relational social deixis and absolute social deixis.
2. In relation social deixis for, there are four kinds of relational social deixis, namely speaker and referent (Referent Honorifics), Speaker and Addressee (Addressee Honorifics), Speaker Bystander (Bystander or Audience Honorifics), Speaker and Setting (Formality Levels). In line with this After analyzing the 25 data objects, the researcher found the relation social deixis are 15 data as the most 60% and absolute social deixis are 10 data 40%.

## **B. Suggestion**

This study focuses on the investigation of the social deixis used in The Jakarta Post. As we know, social deixis is categorized as a kind of deixis which have some parts in every type. According to Levinson (1983), the kind of social deixis is divided into two parts; Relational social deixis and Absolute social deixis. In addition, he also added that each type has a different type of division. There are speaker and referent, speaker and addressee, speaker and bystander, and setting in relational social deixis. Then, in the absolute social deixis there are authorized speaker and authorized recipient. From that case, the datum in The Jakarta Post produce the data that show social deixis consisting of those kinds which means that categorized in The Jakarta Post include words related to social deixis. Based on result of analysis conclusion that has been spelt out about the Social Deixis in The Jakarta Post, the researcher gives some suggestions are as follows:

### **1. For readers**

The researcher hopes that this research will add and provide the information and knowledge about the linguistics world, especially about pragmatics matter in the sub of deixis about social deixis.

### **2. For beginner linguistic**

This research is expected to add the knowledge and information that needed by students about linguistics. This is very essential in

pragmatics as it is as a branch of knowledge in linguistics, specifically in the deixis that discusses about social deixis.

### **3. For next researcher**

In this research, the researcher pretends too many weaknesses because of limited experience research time. Nevertheless, the researcher hopes that this research will provide much information about the social deixis and help the next researcher.
