

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

Based on the previous chapter's description, the writer can conclude that there are many factors that contribute to the low motivation faced by children such as lack of support from their parents or unsupportive family background. This is where the role of the teacher is crucial and needed in fostering an ambiance and supportive learning atmosphere.

Teachers' roles are not only delivering subject lessons but also adapting teaching methods to meet students' various learning requirements. This necessitates a thorough understanding of various learning styles as well as being able to provide personalized support to each student and make sure that no one falls behind. The writer also encourages and makes different approaches to the students.

In conclusion, teaching at *Sentra Terpadu Pangudi Luhur* for *Taman Baca Inklusi* requires a strong commitment to diversity in learning, a willingness to adjust teaching methods, strong collaboration and communication skills, and a genuine enthusiasm for guiding students with diverse abilities to reach their full potential. It is a rewarding role that helps all students develop their abilities and achieve success, regardless of their individual challenges or backgrounds of family.

B. Suggestion

After completing the internship, the writer suggests that the institution that is *Sentra Terpadu Pangudi Luhur* in this final paragraph. The writer hopes that this suggestion will help the institution improve its capabilities.

- 1) The institution requires to build a new room/building that can accommodate more than 20 people so that all activities can take place efficiently and with minimal distractions.
- 2) The institution requires to complete all the facilities that are still lacking and needed at *Taman Baca Inklusi*, so the student can learn quietly.
- 3) The institution requires hiring a new teacher to help ease the work.

For the children or *Penerima Manfaat (PM)*, the writer hopes they can receive a proper education. Also, they can be more enthusiastic when learning, and they can know their life goals to achieve a brighter future.
